Qt Creator interface showing a QML project named "ControlView.qml\*" with three states: Base state, State1, and State2. The State2 state is currently selected and highlighted with a blue border. The main canvas displays a white square labeled "Image".

The interface includes a Navigator panel on the left showing a hierarchical tree structure:

- Parent
  - Sibling One...Item
    - Child One...Loader
    - Child Two...Indicator
  - Sibling Two...Indicator
  - Sibling Three...Loader
    - Child Three...Item

The Library panel shows QML Components and 3D Data visualization options (Bars, Scatter, Surface).

The File System panel shows the project structure:

- gallery
  - ..
  - fonts
  - gallery.qrc
  - otherdoc.qrc
  - somefile.qrc

The Projects panel on the right shows the project structure:

- Dashboard
  - Items
    - Lorem.pro
    - QML
  - document.qml
  - Another
    - Folder

The bottom status bar contains the following panels:

- Type to locate (⌘K)
- Issues (⌘1)
- Search Results (⌘2)
- Application Output (⌘3)
- Compile Output (⌘4)
- QML /JS Console (⌘5)
